At Ramanand Exports, we are proud to serve as trusted exporters of India's most nutritious and culturally significant pulses, grown across its diverse agro-climatic zones. Combining generations of agricultural knowledge with modern food safety practices, we deliver pulses that are clean, consistent, and export-ready—perfect for manufacturers, retailers, and food brands worldwide.

Our pulse varieties are naturally grown, non-GMO, and meticulously processed to retain their nutritional richness and culinary versatility. We maintain complete quality control from farm procurement to port dispatch, supported by lab testing, certifications, and documentation to meet international standards.

Pulses Portfolio – Nutritional & Storage Overview

Grain	Key Nutritional Benefits	Ideal Storage Temperature	Relative Humidity (RH)	Typical Shelf Life After Export
Red Lentils	High in plant-based protein, rich in folate, iron, and dietary fiber. Easily digestible and low in fat. Supports anemia recovery and gut health.	10–20°C	Max 60% RH	12–18 months
Green Lentils	Packed with antioxidants, complex carbohydrates, magnesium, and zinc. Low glycemic and heart-healthy.	10–20°C	Max 60% RH	12–18 months
Yellow Split Peas	Rich in B-complex vitamins, soluble fiber, and amino acids. Supports digestion and blood sugar control.	10–20°C	Max 60% RH	12–15 months
Chickpeas	Protein-rich, low glycemic index, high in folate, manganese, and iron. Ideal for diabetic and plant-based diets.	10–20°C	Max 55% RH	12–24 months
Black Gram	Excellent source of calcium, potassium, and protein. Aids in bone health and energy metabolism.	10–20°C	Max 55% RH	12 month
Green Gram	High in potassium, folate, iron, and bioavailable plant protein. A low-fat, gut-friendly food.	8–15°C	Max 60% RH	9–12 months
Pigeon Peas	Rich in folate, fiber, potassium, and iron. Supports heart health and digestive efficiency.	10–20°C	Max 60% RH	12–18 months
Kidney Beans	High in protein, iron, and soluble fiber. Supports heart health, energy production, and satiety.	10–18°C	Max 55% RH	12–15 months
Moth Beans	High in calcium, iron, fiber; aids digestion and is diabetic-friendly. Low in calories.	8–18°C	Max 60% RH	9–12 months
White Peas	Moderate in protein, high in starch and fiber. Inexpensive and versatile for bulk processing.	10–20°C	Max 60% RH	12 months

Storage & Handling NotesTo ensure optimal freshness, color, and nutritional integrity of pulses during global transit and shelf storage:

- ✓ Humidity Control: Maintain below 60% RH to prevent fungal growth, insect infestation, and deterioration.
- ✓ Temperature Control: Ideal range is 8–20°C, depending on the pulse type. Avoid heat-prone or unventilated storage zones.
- ✓ Ventilation: Store in dry, clean, and aerated environments.
- ✓ Packaging Integrity: Use moisture-resistant, food-grade bags. Vacuum sealing or nitrogen flushing can be used for extended shelf life.

Shelf life may vary based on storage practices, packaging type, and climatic exposure during transportation.

Why Choose Ramanand Pulses?

Feature Details

- ✓ 100% Natural & Non-GMO No artificial chemicals or preservatives; sourced responsibly from vetted farmers
- ✓ Nutritionally Dense Rich in protein, fiber, vitamins, and minerals; ideal for clean-label and health-conscious food brands
- ✓ Laboratory Tested Tested for moisture, foreign matter, aflatoxins, and pesticide residues
- ✓ Advanced Processing Graded, polished/unpolished, color-sorted, and metal-detected under ISO 22000, HACCP & FSSAI-certified units
- ✓ Export Ready Supported with phytosanitary certificates, fumigation, SGS inspection, and international compliance
- ✓ Custom Packing & Branding Bulk & retail packs with private labeling, OEM branding, and custom bag design support

Packaging Options

Type Available Sizes & Details

Bulk Bags 25kg / 50kg PP bags, jute sacks, or BOPP laminated bags with custom branding.

Retail Packs 500g, 1kg, 2kg, 5kg stand-up pouches, zipper packs, vacuum sealed, or window packs with full branding.

Container Loads Full container load (FCL) or less-than-container load (LCL) with Global documentation & logistics support.
