**At Ramanand Exports, nuts are more than just wholesome snacks—they are power-packed health foods, vital culinary components, and global trade essentials. Our Nuts Division brings together India's rich network of growers, certified import partners, and world-class processing units to curate a diverse portfolio of premium-quality nuts—carefully sourced, hygienically handled, and precision-packed for international retail, food-service, and industrial buyers.**

**From naturally sun-dried Indian groundnuts to Afghan almonds, Chilean walnuts, Californian pistachios, and globally-sourced gourmet nuts, we maintain a consistent supply of origin-certified, nutritionally rich nuts—processed to preserve flavour, freshness, and food safety.**

### **Global & Domestic Sourcing Excellence**

**We operate through a dual-channel sourcing system—combining domestic strengths with international import tie-ups to deliver both quality and variety:**

- ✓ Indian Groundnuts (Peanuts) – From Gujarat & Rajasthan, naturally sun-dried
- ✓ Afghan Almonds – Sweet and firm from Kandahar's high-altitude orchards
- ✓ Chilean & Kashmiri Walnuts – Omega-rich, plump halves with delicate flavour
- ✓ American Pistachios – Uniform calibre, high yield, and preferred taste
- ✓ Hazelnuts, Macadamia & Brazil Nuts – Premium imports for global gourmet clients
- ✓ Pine Nuts – From the Himalayan belt, nutrient-dense and rare
- ✓ Fox Nuts – Calcium-rich, gluten-free, and ideal for fasting and snacking

**Each nut type is meticulously selected for kernel integrity, oil content, moisture stability, and natural shelf-life potential—ensuring compliance with the most demanding food standards worldwide.**

## Processing – From Orchard to Outlet with Traceability

All processing is conducted in FSSAI, ISO 22000, HACCP, and BRC-certified facilities, ensuring that every batch meets international expectations for purity, hygiene, and safety.

### Key Processing Stages:

Moisture-Controlled Storage & Cold Chain  
Mechanical Cleaning & Shell Removal  
Manual & Optical Sorting for Purity  
Grading by Size, Density & Kernel Shape  
Aflatoxin Testing, Microbial Control, & Pesticide Screening  
Vacuum Packing, Nitrogen Flushing & Export Labelling

Our tech-driven quality checkpoints ensure each nut is free from contaminants, properly dried, and packed to retain crunch, colour, and taste—making them ideal for global shipping, extended shelf life, and retail display.

### Nuts Portfolio – Nutritional & Trade Overview

| Nut Type    | Nutritional Highlights                     | Available Forms                         | Shelf Life   |
|-------------|--------------------------------------------|-----------------------------------------|--------------|
| Groundnuts  | High protein, Vitamin E, folate, good fats | Raw, roasted, blanched, splits          | 6–12 months  |
| Almonds     | Vitamin E, magnesium, fibre, skin-friendly | Whole, sliced, chopped, flour, blanched | 12–18 months |
| Walnuts     | Omega-3, memory support, anti-inflammatory | Halves, kernels, broken                 | 12 months    |
| Cashew Nuts | Iron, copper, low-sugar profile            | W320, W240, splits, roasted, salted     | 9–12 months  |
| Pistachios  | Protein, lutein, heart-healthy fats        | In-shell, shelled, roasted, salted      | 9–12 months  |
| Hazelnuts   | Folate, vitamin E, skin & brain health     | Whole, roasted, paste                   | 9–12 months  |
| Pine Nuts   | Zinc, iron, essential fatty acids          | Shelled, dry-roasted                    | 6–9 months   |
| Fox Nuts    | Gluten-free, high in calcium, low-calorie  | Puffed, plain, flavoured                | 6–9 months   |

### Packaging Formats & Private Labelling

We cater to diverse market needs through flexible, compliant, and fully export-ready packaging options:

- ✓ Bulk Export – 10kg, 25kg, 50kg jute, PP, or kraft-laminated sacks
- ✓ Retail Ready – 100g–1kg stand-up pouches, PET jars, vacuum packs
- ✓ Private Label – Full-service white labelling with co-branded design
- ✓ HoReCa – Bulk cartons and pillow pouches for foodservice institutions

## Applications & Industry Usage

### Our nuts are trusted across a range of verticals:

Chocolatiers & Confectioners – Ganache, pralines, roasted inclusions

Breakfast & Wellness Brands – Granola, protein bars, keto snacks

Bakeries & Hotels – Cookies, muffins, desserts, pastries

Traditional Indian Sweets (Mithai) – Kaju katli, laddoo, nut chikkis

Nutraceuticals & Skincare – Walnut scrubs, almond oil, dietary capsules

Modern Trade & E-Commerce – Branded, gift-ready, and wellness packs

## Quality Assurance, Certifications & Testing Protocols

We adhere to zero-compromise quality through:

- ✓ Moisture Testing
- ✓ Aflatoxin & Mycotoxin Analysis
- ✓ Microbial Load Testing (TPC, Yeast, Mould)
- ✓ Pesticide Residue Screening (As per Codex / EU norms)
- ✓ Visual Defect Detection & Grading
- ✓ Certifications: APEDA, FSSAI, ISO 22000, BRC, HACCP, SGS, Halal, Kosher

## White Labelling & Brand Development Services

Whether you are launching a health food range, expanding your confectionery portfolio, or exporting under your own label—we offer full-spectrum private labelling services:

Product ideation & packaging design

Blended combo packs (trail mixes, keto packs, gourmet gifts)

Regulatory label compliance (Nutrition Panel, Ingredients, Allergens)

Freight & export logistics – EXW, FOB, CIF, DDP, bonded warehouse
