At Ramanand Exports, honey isn't just a sweetener — it's a sacred expression of nature's perfection, harvested with care and bottled with integrity. From the mustard fields of Punjab to the high-altitude Himalayan forests, our Honey Division offers the world a curated selection of raw, mono-floral, multi-floral, and specialty honeys that are unadulterated, nutrient-dense, and globally certified.

We follow a farm-to-jar model, ensuring complete traceability, ethical beekeeping practices, and cold-chain processing that preserves the honey's enzymes, antioxidants, and medicinal properties — from hive to home.

### **Farm-to-Jar Traceability & Processing Excellence**

**We manage the entire honey lifecycle:**

#### **Ethical Beekeeping**

- ✓ Sourced from tribal honey gatherers and certified beekeeping co-ops
- ✓ No synthetic feeding, antibiotics, or chemical stimulants used
- ✓ Selective Harvesting
- ✓ Harvested at full floral maturity
- ✓ Respecting bee colony sustainability and ecosystem harmony
- ✓ Cold-Chain Extraction
- ✓ Cold-processed to retain enzymes, bee pollen, and antioxidants
- ✓ No pasteurization or heat filtration unless specified for client standards

#### **Third-Party Lab Testing**

##### **Tested for:**

Sugar adulteration (via NMR & FTIR)

Antibiotics & pesticide residues

Moisture (<20%), HMF & Diastase

NABL-accredited and export-standard compliant (EU, GCC, FDA)

Export-Grade Bottling

Available in PET bottles, glass jars, bulk drums, squeezable retail packs

Facilities certified under FSSAI, ISO 22000, APEDA, HACCP, and NPOP

## Diverse Floral Origins, Singular Quality Promise

**India's unique geography allows us to source honey from diverse floral belts, including:**

## Mustard fields of Punjab & Haryana – Light, antioxidant-rich

## Sundarbans forests – Wild honey with intense mineral complexity

## Litchi orchards – Aromatic, fruity, and highly digestible

## Neem, Jamun & Ajwain zones – Functional honeys with digestive and antimicrobial benefits

## Eucalyptus groves – Herbal, expectorant properties

## Himalayan Sidr trees – Luxurious, rare, and highly medicinal

Each variety is origin-traced, lab-tested, and packed under globally compliant certifications, ensuring international buyers receive authentic, unprocessed Indian honey of the highest purity.

## Our Honey Product Portfolio

Honey Type	Source Floral Origin	Nutritional/Health Highlights	Usage & Application
Raw Wild Forest Honey	Forest belts (multi-floral)	Rich in polyphenols, antibacterial, immunity boost	Wellness shots, smoothies, teas
Mustard Honey	Mustard fields	High antioxidants, anti-inflammatory	Salad dressings, daily table use
Eucalyptus Honey	Eucalyptus plantations	Respiratory benefits, expectorant	Lozenges, herbal syrups, teas
Multi-Floral Honey	Mixed wildflowers	Balanced nutrition, versatile	All-purpose, retail jars, HoReCa
Creamed Honey	Whipped raw honey	Retains all raw benefits, unique texture	Breakfast spreads, gifting
Honey with Comb	Direct hive extraction	Contains wax, propolis, enzymes	Gourmet gifts, chewable enzyme-rich product

## Why Our Honey Stands Out

- ✓ Cold-Extracted & Raw – Full enzymatic activity, bee pollen, and antioxidants preserved
- ✓ Adulteration-Free – Tested for sugar syrups via NMR, LC-MS/MS, FTIR
- ✓ Globally Certified – FSSAI, APEDA, ISO 22000, NPOP & custom FDA/EU compliant labeling
- ✓ Sustainable & Ethical – Sourced through fair-trade and eco-conscious beekeeping
- ✓ Flexible Packaging – Glass jars (250g–1kg), PET, squeeze bottles, bulk drums (20kg–50kg)
- ✓ Private Label Ready – Nutritional info, barcode, QR traceability, shelf life up to 24 months

## Applications Across Industries

Industry	Application
Retail & Gourmet	Raw honey jars, infused blends, comb honey, creamed honey, gift boxes
Food & Beverage	Bakery, energy bars, cereals, sauces, RTD beverages
Nutraceutical & Wellness	Ayurvedic blends, immunity boosters, detox formulas
Pharmaceutical	Cough syrups, wound ointments, digestive tonics
Cosmetics	Lip balms, facial scrubs, moisturizers, natural antiseptic creams
Industrial & Bulk	Foodservice packaging, repacking, OEM & white-label export

## Ideal Storage & Export Logistics

Parameter	Standard
Storage Temperature	10°C – 25°C (cool, dry conditions)
Humidity Level	Below 60% RH
Shelf Life	Up to 24 months (sealed, controlled conditions)
Packaging Options	250g–1kg (retail), 5kg–50kg (bulk), OEM ready

## Our Commitment to Quality & Ethical Beekeeping

- No synthetic feeding or antibiotic use in bee colonies
- Non-invasive harvesting methods protect bee welfare and colony balance
- Regular third-party testing for purity, residues, and global import readiness
- Partnerships with tribal & rural beekeepers through sustainable and fair-trade practices

Partner with Ramanand Exports – Trusted by Buyers Worldwide Whether you are a gourmet brand, food manufacturer, wellness innovator, or retail exporter, Ramanand Exports delivers authentic Indian honey solutions backed by technical expertise, transparent traceability, and global reliability.

## Private Label Programs

- Bulk Honey Supply
- Infused Honey & R&D Customization
- End-to-End Export Documentation & Logistics Support

Experience honey the way nature intended — raw, rich, and responsibly harvested.
